Coding for Closed Treatment of Fractures - AAOS Coding for closed treatment of fractures is nuanced and complex, which can lead to confusion. This article clarifies previously published guidelines on how to code for this form of treatment. Any physician or qualified health care provider may consider the following methods of coding for closed treatment of a fracture under Current Procedural.

Bone fracture - Wikipedia A bone fracture (sometimes abbreviated FRX or Fx, F x, or #) is a medical condition in which there is a partial or complete break in the continuity of the bone. In more severe cases, the bone may be broken into several pieces. A bone fracture may be the result of high force impact or stress, or a minimal trauma injury as a result of certain medical conditions that weaken the bones, such as.
